

Peyton Tolbert

Chesapeake, VA - (757) 392-5302

email@peytontolbert.com - <http://peytontolbert.com> - <https://github.com/peytontolbert>

PROFESSIONAL SUMMARY

Well-rounded Software Engineer skilled in creating and managing complex projects with a commitment to providing a high level service and support to clients. Knowledge in all parts of the development pipeline from planning, project assessments, technical systems implementation, debug and troubleshooting. I am leaving the Engineering field to pursue a career I am passionate about.

SKILLS & ABILITIES

- C#, React, Docker, SQL, NodeJS, Java, Javascript, Python, HTML, CSS, XML, MongoDB
- Visual studio, VS Code, GitHub, Azure, Excel
- Quality assurance and troubleshooting
- Secret Security Clearance
- Data Structures and Algorithms

Projects

Software Development and Operations

Remote

2018-Present

- Valve and Piping Management System – In order to solve redundancy and user errors I created a component management system to replace large paper charting. I used object-oriented software and create microservice-based solutions for users. This project used React, Redux, C#, NodeJS, MySQL, MongoDB, Azure, and Github. <https://github.com/peytontolbert/pinboardsv2>
- Built personal resume website application using technologies such as bootstrap, Azure and Git services to deploy a simple web application. Deployed software solutions on modern cloud systems using automated systems. <https://github.com/peytontolbert/ResumeWebsite>

PROFESSIONAL EXPERIENCE

Huntington Ingalls Industries.

Newport News, VA

May 2021-Present

Engineering Technician 3

- Collaborate with cross-functional teams to deliver high-quality products.
- Managed tracking and data entry for over 5000 separate work documents in a database
- Coordinating with clients to ensure work completion in a satisfactory and timely manner.
- Maintained and audited documentation for all individual jobs, safety tags, and authorization forms for a submarine overhaul.

US Navy

Norfolk, VA

April 2015-April 2018

Nuclear Machinist's Mate

- I worked in both team and independent environments to complete over 1500 hours of rigid, procedurally oriented maintenance as well as troubleshooting and correcting equipment failures.
- Supervised and mentored 12 junior sailors and reduced qualification times by as much as 20%.

CERTIFICATIONS AND TRAINING

- Mechanical Engineering Technology – Bachelors of Science, attending ODU **2022-Present**
- Engineering Management – Minor, attending ODU **2022-Present**
- Skillssoft: Data Engineering on Microsoft Azure: Storage Accounts. **2023**
- Skillssoft: Data Engineering on Microsoft Azure: Data Factory **2023**
- Skillssoft: Software Design and Development: Methodologies **2023**
- Skillssoft: Software Design and Development: Object-Oriented Analysis and Design **2023**
- Skillssoft: Java Certified Foundations Associate: Design Patterns **2023**
- Skillssoft: Patterns in programming: API Design Patterns **2023**
- Skillssoft: Building Better Applications with Microservice Architecture **2023**
- Skillssoft: Build Apps Using React: Props & State **2023**
- Skillssoft: Programming Fundamentals: Introduction to Programming **2023**

- MTA: Introduction to Programming Using HTML and CSS 2022
- MTA: Database Fundamentals 2022
- MTA: Introduction to Programming Using JavaScript 2022
- Naval Nuclear Power Training Command 2015-2016
- Naval Nuclear Power Training Unit 2016-2017
- Naval Qualification: Quality Assurance 301 2017
